

# What's Included in the Sybase® SQL Anywhere Editions?

## SQL Anywhere Standard Edition:

**SQL Anywhere Standard 5 User:** Provides licensing for one SQL Anywhere (multi-user) Server and includes out of the box High Availability, database monitoring, MobiLink Synchronization Server and 5 User licenses granting each user licensing for a Networked Seat, SQL Anywhere Personal Database with Synchronization and QAnywhere, UltraLite with Synchronization and UltraLiteJ with Synchronization. For larger deployments, additional licenses may be purchased for individual components.

**SQL Anywhere Standard 1 Chip License:** Provides licensing for one SQL Anywhere (multi-user) Server and includes out of the box High Availability, database monitoring, MobiLink Synchronization Server, and licenses for an unlimited number of networked seats. Note: licensing for SQL Anywhere Personal Database with Synchronization and QAnywhere, UltraLite with Synchronization and UltraLiteJ with Synchronization is not included but additional licenses may be purchased for individual components.

SQL Anywhere Standard Edition		
Key Components	5 User Server Package	SQL Anywhere (1 Chip License)
SQL Anywhere Standard Server	Yes (1)	Yes (1)
MobiLink Server	Yes	Yes
SQL Anywhere Client	Yes (5) <sup>1</sup>	Yes (unlimited)
SQL Personal Server w/Synchronization and QAnywhere	Yes (5) <sup>1</sup>	Option
UltraLite with Synchronization and/or UltraliteJ with Synchronization and/or Ultralite for iPhone with Synchronization	Yes (5) <sup>1</sup>	Option
Monitoring	Yes	Yes
SQL Anywhere Database High Availability Option	Yes	Yes
Read-Only Scale-Out	Not available <sup>2</sup>	Not available <sup>2</sup>
In-Memory Mode	Not available <sup>2</sup>	Not available <sup>2</sup>
FIPS Security	Option <sup>3</sup>	Option <sup>3</sup>
ECC Security	Option <sup>3</sup>	Option <sup>3</sup>

<sup>1</sup> - The SQL Anywhere Client(s) are licensed for use on the same machine(s) as the SQL Anywhere Personal Server with Synchronization and QAnywhere. The UltraLite with Synchronization and UltraLiteJ with Synchronization license(s) are for use by the same person(s) licensed for the Clients but on a separate device and may only be synchronized to the same machine(s) licensed to use the above SQL Anywhere Clients and Personal Server with Synchronization and QAnywhere. Additional licenses beyond those included in the base package are available separately.

<sup>2</sup> - Is only available as part of the SQL Anywhere Advanced Edition.

<sup>3</sup> - Option items are not licensed as part of the base package but are available separately at an additional charge.

Not all components are available on all platforms. For example, certain components are not supported on all UNIX platforms. In these situations, Windows NT versions of these components are included.

## SQL Anywhere Advanced Edition:

**SQL Anywhere® Advanced 25 User:** Provides licensing for one SQL Anywhere (multi-user) Server and includes out of the box High Availability, database monitoring, MobiLink Synchronization Server, In-Memory Mode, FIPS Security and Replication Agent and 25 User licenses granting each user licensing for a Networked Seat, SQL Anywhere Personal Database with Synchronization and QAnywhere, UltraLite with Synchronization and UltraLiteJ with Synchronization. For larger deployments, additional licenses may be purchased for individual components, including FIPS Security.

**SQL Anywhere® Advanced 1 Chip License:** Provides licensing for one SQL Anywhere (multi-user) Server and includes out of the box High Availability, database monitoring, MobiLink Synchronization Server, In-Memory Mode, FIPS Security and Replication Agent and licenses for an unlimited number of networked seats. Note: licensing for SQL Anywhere Personal Database with Synchronization and QAnywhere, UltraLite with Synchronization and UltraLiteJ with Synchronization is not included but additional licenses may be purchased for individual components.

SQL Anywhere Advanced Edition		
Key Components	25 User Server Package	SQL Anywhere (1 Chip License)
SQL Anywhere Advanced Server	Yes (1)	Yes (1)
MobiLink Server	Yes	Yes
SQL Anywhere Client	Yes (25) <sup>1</sup>	Yes (unlimited)
SQL Personal Server w/Synchronization and QAnywhere	Yes (25) <sup>1</sup>	Option <sup>2</sup>
UltraLite with Synchronization and/or UltraLiteJ with Synchronization and/or UltraLite for iPhone with Synchronization	Yes (25) <sup>1</sup>	Option <sup>2</sup>
Monitoring	Yes	Yes
SQL Anywhere Database High Availability Option	Yes	Yes
Read-Only Scale-Out	Yes	Yes
In-Memory Mode	Yes	Yes
FIPS Security	Yes (25) <sup>1</sup>	Yes
ECC Security	Option <sup>2</sup>	Option <sup>2</sup>

<sup>1</sup> - The SQL Anywhere Client(s) are licensed for use on the same machine(s) as the SQL Anywhere Personal Server with Synchronization and QAnywhere. The UltraLite, UltraLiteJ and UltraLite for iPhone with Synchronization license(s) are for use by the same person(s) licensed for the Clients but on a separate device and may only be synchronized to the same machine(s) licensed to use the above SQL Anywhere Clients and Personal Server with Synchronization and QAnywhere.

<sup>2</sup> - Option items are not licensed as part of the base package but are available separately at an additional charge.

Additional licenses beyond those included in the base package are available separately.

Not all components are available on all platforms. For example, certain components are not supported on all UNIX platforms. In these situations, Windows NT versions of these components are included.

## SQL Anywhere Workgroup Edition:

**SQL Anywhere Workgroup Edition:** Provides the SQL Anywhere software and licensing of various product components. The chart below summarizes the key components licensed in each Workgroup Edition / Base Package. Additional features and licensing are included in the Standard and Advanced Editions. The SQL Anywhere Workgroup Edition supports a maximum of 2 CPUs. SQL Workgroup products include:

- **SQL Anywhere Workgroup Edition 5 User Server (v12, v11.01) / SQL Anywhere 5 User Server (v10.x)**
- **SQL Anywhere Workgroup Edition 10 User Server (v12, v11.0.1) / SQL Anywhere 10 User Server (v10.x)**
- **SQL Anywhere Workgroup Edition 1 Chip License (v12, 11.0.1) / -SQL Anywhere 1 Chip License (v10.x)**

SQL Anywhere Workgroup Base Packages			
Key Component	SQL Anywhere 5-User	SQL Anywhere 10-User	SQL Anywhere (1 Chip License)
SQL Anywhere Workgroup Server	Yes (1)	Yes (1)	Yes (1)
Mobilink Server	Yes	Yes	Yes
SQL Anywhere Client	Yes (5) <sup>1</sup>	Yes (10) <sup>1</sup>	Yes (unlimited)
SQL Personal Server w/Synchronization and QAnywhere	Yes (5) <sup>1</sup>	Yes (10) <sup>1</sup>	Option <sup>1</sup>
UltraLite with Synchronization and/or UltraLiteJ with Synchronization and/or UltraLite for iPhone with Synchronization	Yes (5) <sup>1</sup>	Yes (10) <sup>1</sup>	Option <sup>1</sup>
Monitoring	Available in Standard and Advanced Edition		
SQL Anywhere Database High Availability Option	Available in Standard and Advanced Edition		
Read-Only Scale-Out	Available in Advanced Edition		
In-Memory Mode	Available in Advanced Edition		
FIPS Security	Option <sup>2</sup>	Option <sup>2</sup>	Option <sup>2</sup>
ECC Security	Option <sup>2</sup>	Option <sup>2</sup>	Option <sup>2</sup>

Option<sup>1</sup> - The SQL Anywhere Client(s) are licensed for use on the same machine(s) as the SQL Anywhere Personal Server with Synchronization. The UltraLite with Synchronization license(s) are for use by the same person(s) on a separate device and may only be synchronized to the same machine(s) licensed to use the above SQL Anywhere Clients and Personal Server with Synchronization.

<sup>2</sup> - Option items are not licensed as part of the base package but are available separately at an additional charge.

NOTE: Not all components are available on all platforms. For example, certain components are not supported on all UNIX platforms. In these situations, Windows NT versions of these components are included. See System Requirements for further information.

The ECC and FIPS Security options and Replication Agent for SQL Anywhere are present on the media included in SQL Anywhere base packages, but require the purchase of separate licenses.

o Not all components are available on all platforms. For example, certain components are not supported on all UNIX platforms. In these situations, Windows NT versions of these components are included.
