IMPORTANT NOTES

1. High Availability support indicates Active/Active support. Active/Passive support for High Availability is limited to Solaris/SPARC platform only.
2. Option availability varies on various editions. Please check the ASE Data Sheet for more information about the differences between various editions.
3. Java Options, Native XML, and Java-based XML are features in XML Management Option and are not sold separately.
4. LDAP Server Directory, LDAP User Authentication, SSL, CyberSafe Kerberos, MIT Kerberos, Native Kerberos, FGAC, and PAM are features in Security
5. Real Time Messaging feature is only available as part of the Real Time Data Services solution. It is not sold separately.
6. The optional features are described in more detail in the various data sheets available. For more product information, please see <http://www.sybase.com/ase>
